2ND MBBS RESULT RELEASED!

The news of the release of the last **2nd MBBS professional examination** results had swept through the entire **University community of the Enugu campus of University of Nigeria, UNEC**, like a razing fire in a harmattan forest. The results which, after a dramatic delay the previous day, were pasted on notice boards in the early hours of **Thursday, June 20th**.

Referred to as one of the *most dreaded exams in the world*, the **2nd MBBS**, which in some other schools is also known as **1st professional MBBS** is written by **3rd year medical students**

in various Nigerian Universities, though not necessarily simultaneously.

It is so important an exam that its outcome is a vital determinant on one's progress in the glorified college of medicine.

3 courses are usually written including: **Anatomy, Biochemistry, and Physiology**.

One can get a Pass, a Distinction, or a Fail.

Analysing the results, the **UNMSA PaRrOt** learnt that there was **47.17%** passes for the **3 courses**, including the Distinctions.

16.92% passes was recorded for **two courses**, while **10.51%** pass rate was recorded for just **one course**.

Going further in the investigations, the

UNMSA PaRrOt also gathered that **23.84%** failed the **3 courses**. **1.54%** was recorded for absentees. Computing the figures, out of the 398 persons that sat for the exam, 184 students passed all 3, while **66** students passed two. **41** persons passed just one, while **93** failed all the three courses. Number of absentees bordered at **6**. **2** students had Distinctions in the 3 courses, while another **3** had two distinctions. Another **8** also pocketed a Distinction out of the 3 three courses. Comparing the results with that of last year's, it was learnt that this year's was better, as more students were able to scale through, out of pre-clinicals and onto clinical training. Speaking on the improvement, the **#doinggovernment** led by **Rt. Hon. Nwonye Bryan** commended the input of the **UNMSA academic team** for the numerous tutorials organized which greatly helped increase the pass rate.

UPDATE ON TRANSPORT

In line with our vision to make the transport system better in this current administration, the Director Of Transport, **Rt. Hon. Ananwuna Paul** met with the **Deputy Provost College of Medicine** due to the problems we have with the college bus. He was directed to meet the **College Director Of Transport** to sort out other issues that were presented. **Rt. Hon. Paul** met with the Director and tried to convince him to make the college bus available to those at old site on some days, while those in UNEC get to use it some other days.

He however said that our faculty bus should be stationed at old site while the college bus will be @ UNEC. The **DOT** reluctantly agreed with the condition that those in **022 class** would get to make maximum use of the college bus to which they agreed as long as they came out early.

He also met the **Dean, Faculty of Medical Sciences Prof. Ekenze** to thank him for repairing the Faculty bus and to also know why it stopped coming around for a while. The Dean explained that he

wanted to make sure that the bus was well repaired before it returned to the road. He also said that a new driver would be employed as well.

The few days the bus came around were just a test run.

The Dean also promised that he was doing everything possible to see that the price of **#50.00** was also maintained and that a good driver that can be controlled would be hired.

CENTURY21 FREEDOM GROUP

In line with this administration's vision to bring some life changing programs to **UNMSAites** and to also ensure that we are more than just medical students, the **Office of the UNMSA Financial Secretary** organized a program that was coordinated by **CF21G INTL. (CENTURY21FREEDOM GROUP INTERNATIONAL)**. This is a business organization made up of self motivated and forward thinking men and women from various professions & backgrounds.

They discussed financial needs have freedom, time freedom and created gaps in most Health freedom with families. We have little or **UNMSAites**. Speaking with no time for family bonding and creating healthy relationships necessary for development of the godly family we desire.”

the event, **Rt. Hon. Okolie Chidera** said, “I had to bring this to you all after considering the harsh reality of our nation's economy today. We need to start considering other legitimate alternative avenues to enhance our income streams without disrupting our present engagements. We all know that daily pursuits to meet personal and family

This is the **#doing government**.

UNMSA will surely reach greater heights.

FIRST EDITION OF THE UNMSA PaRrOt GETS RELEASED

The UNMSA PaRrOt is the monthly newsletter of the University of Nigeria Medical Students Association (UNMSA) coming from the *Office of the UNMSA PRO 18-19 Administration*; Rt. Hon. Iferikigwe, Victor Chidera (Iferika JR) the current UNMSA PRO and Rt. Hon. Agubama Francis, Asst. UNMSA PRO. It contains basically all important events that

happens in UNMSA for a particular month ranging from the decisions of the current UNMSA Executives to NiMSA Activities, the political atmosphere in UNMSA, Entertainments, Sports, articles by UNMSAites and advertisements by 'UNMSApreneures'.

The first edition of the newsletter was released on the 15th of June, 2019 and it was indeed a huge success.

We can now say that UNMSAites are now increasingly aware of the activities of the Greatest Association in the University Of Nigeria Enugu Campus, and Enugu in general.

Individuals who are also interested in joining our Great Team can send messages or contact Rt. Hon. Iferikigwe, Victor Chidera, UNMSA PRO
Rt. Hon. Agubama Francis Fimbar, UNMSA Asst. PRO 18-19

This is the #doinggovernment led by His Excellency Rt. Hon. Nwonye Brian, UNMSA PRESIDENT

CALL FOR PARTICIPATION IN NiMSA ACTIVITIES

The UNMSA President, Rt. Hon. Nwonye Brian has called on UNMSAites to participate effectively in the activities of the Nigeria Medical Students Associations. The importance of NiMSA to UNMSA & UNMSAites cannot be overemphasized. All UNMSAites are advised to participate in the ongoing Nigeria Medical Students Committee Academy (NiSCA) lectures and NiMSA SCOMO OPERA 2.

Rt. Hon. Iferikigwe, Victor Chidera, the current UNMSA PRO is the UNMSA National Representative for NiMSA SCOMO OPERA 2 and NiSCA lectures. For all your

questions, kindly contact him for more details. We're here to serve you all well. UNMSAites have started feeling and will continue feeling the presence of the #doinggovernment '019.

IMPROVED 2ND MBBS EXAMINATION PACKAGE

By the special grace of God, the doing government led by **Rt. Hon. Nwonye Brian** completed one of its agenda.

The DOING GOVERNMENT was supportive from the beginning of the 2nd MBBS exams and maintained it till the end.

During the exams, the doing government ensured that

1) 400Hb pencils were shared to all the candidates sequel to poor shading with inappropriate pencils during the mock.

2) Welfare packages were given and was 100% sponsored by the doing government. No special funds were sourced by any office for this reason.

There was also an upgrade from the normal professional examination feeding routine. A well prepared rice and meat were given on the 2 examination days. Importantly, the upgrade has come to stay.

3) In addition to this, we also brought back the **UNMSA examination name tag** to further ensured **UNMSAites** had no issue of ID in their exams and to ensure every **UNMSAite** got his/her welfare package.

4) The **intensive tutorials** from **UNMSA** continued with much improved aggression and the results speak volume of the effort put in by members of the academic committee led by **Comrade Oputa Stephen (Stefan)**.

The **#doinggovernment** plans to make a revolutionary change in **UNMSA** and we plan to inculcate more developments as time goes on.

Never fail to bring up your complaints, suggestions, advice and contributions as they would help foster the progress of the association..

God bless Nigeria
God bless UNMSA

We are not just medical students, we're **UNMSAites**

From the **UNMSA President, Rt. Hon. Nwonye Brian**

PERSONALITY OF THE MONTH

Good evening ma'am, the UNMSA PaRrOt chose you to be the personality of the month after seeing how you've become a source of hope and a role model to lots of students.. Please could you introduce yourself to us.

I'm **Iheme Gift Chisom** popularly called **Som-Gee**. I'm this happy fellow always cheerful, caring and of course very loveable. I can also add that I'm a joy giver (*giggles*). I'm currently in the best class in UNMSA, 2019 class.

Question Two: *You were once the Director Of Welfare in UNMSA, lots of students were really happy to have you serve back then. What motivated you to take up that position?*

Well, basically I care for people and then I always try to help them in one way or the other. I just needed an opportunity to do it officially and in a way that I'd get across to as many people as I can. I went through the constitution of UNMSA and saw the duties of the welfare officer and as well saw the duties of other principal officers and I decided that the Welfare officer would help me get across people. I also remember thinking about the UNMSA revolving fund thing. I loved the idea and wondered why it didn't work back then. One of my aims was to make sure it came back and thank God it was successful.

Question Three; *Literally everyone has a role model. So please who's your role model? What qualities does the individual possess?*

Well sincerely I can't think of anybody. I won't see them as role models. I just like the way they are and where they are in life. I met one Prof. Diddy when I went for my elective postings in UK. He's a prof in Obstetrics & Gynaecology which is where I'd like to specialise. He's someone I can say is my role model. He's achieved a whole lot

Question Four: *What are your hobbies?*

(Laughs) I always answer eating. I don't like reading. I like gisting, going out with friends and also enjoy playing games

Question Five: *How do people describe you?*

Some say I'm a happy person, some see me as someone that's very friendly, someone that can also help. Some say I'm too focused though I'm not. Some say I'm smart academically which I'm not sure of (*giggles*)

PERSONALITY OF THE MONTH

Question Six: *Aside medicine which other sphere of life do you think you'd fit into with ease?*

I'd say acting because its something I enjoy doing. It comes naturally. I don't really need a special preparation for it. I think I'd fit in properly into it. I also like sporting, especially football. I think I'd do well as a footballer. I also like French. I'd like to have something to do with French probably become an Ambassador.

Question Seven: *Where do you see yourself after graduating from medicine*

Well most people don't want to be in Nigeria. I'm one of them. I'd like to go abroad. First of all do my house job here. If there was a way to do my house job over there id have loved it. I'd just do my youth service here and hopefully move abroad for my residency program. After that I hope to come back and do politics in Nigeria and hopefully help the health sector

Question Eight: *Who would you give gratitude to that partook in shaping your life:*

Hmm, first of all God has been with me from first year to final year. He also placed some special persons in my life, my parents especially my dad. My dad is a blessing to me. My fiends and some of my classmates that tell me the truth. I also thank some of my consultants too. All these are for the university. Back then in Secondary school, I have some teachers that really helped me a lot.

Question Nine: *Any regrets in politics*

(laughs) Well, there is really no deep regret. I didn't really start early to prepare for each of my exams and id be like "God please help me pass this one, id start early to prepare for the other exams" . I kept procrastinating till final MBBS but still God has His way to make me pass. So I'd basically say my inability to really keep to my word on my academics.

I didn't really play politics the way I wanted to. I had some personal life issues and it prevented me from contesting for some post when people expected me to.

Question Ten: *What advise do you have for UNMSAites especially the preclinical students*

I'd be lying if I say that medicine is easy. You have to take it easy while studying medicine. Don't rush it. Take your time. There are some things that I didn't get to understand till I got to final year. Its really a process. Its also important to focus on God. Everything is on God. Its also nice to participate in politics. Its really healthy. Your spiritual life is important too, learn to strike a good balance with your academics.

IF WOMEN START DRESSING LIKE REV. SISTERS, WILL MEN STOP RAPING???

So I was taking a stroll across the streets of Instagram and I saw a post by Tonto Dike. She made a post about a certain Nigerian Man who was in jail for rape. In her post she wrote

“IDRIS EBILOMA RAPED KHOLE WHEN SHE WAS 4YEARS OLD, He has been in Kuje prison but this Friday he WILL be released and that's a BIG NOOOOOOOOOO.. We want LIFE IMPRISONMENT, I will personally be in court

with her Aunty [@halima_dream](#) on Friday to demand... [#JUSTICEFORKHOLE](#)...

I began to wonder, 4 YEARS!! why would a man rape a 4 year old girl, he must be possessed or something. This is not the first case of child rape we've had in this country. When people get raped, especially girls, you hear people saying stuff like “what was she wearing ?” “I'm sure she was half naked”. “she must have seduced the guy ”

But considering the fact that there are so many cases of child rape in Nigeria, and the last time I checked, there's nothing “sexually attractive” about a child who's probably 5 years. Considering the fact that even Rev Sisters who cover almost their entire body still get raped. It's important we ask a pertinent question

Is Indecent dressing the cause of rape???

If you tell me a girl's indecent style of dressing might have caused her to get raped, I might concur with you. But if you tell me a girl is to blame for been raped, I'll shake my head in pity, after I must have given you a disappointing look.

How can we blame girls for being raped, how can we blame boys for being raped? The blame should entirely be on the rapist. Indecent dressing is wrong and I condemn it, but how about you look the other way when you see an indecently dressed lady rather than use her indecency as an excuse to perpetuate a demonic act.

Do you know that there was a time in Igbo land that young maidens don't wear much as clothing. They were mostly topless, even their skirts were very short and revealed a great part of their thighs, still IGBO MEN DIDN'T RAPE THEIR GIRLS.

Have you seen Indians dress? All ye zee world lovers will agree that Indian women usually dress very decently. They wear Saree, a cloth that usually covers almost their body. Do you know that despite all the decency in India, India is still one of the countries with the highest rape cases in the world. It's obvious that rape has little to do with dressing.

What can we do to destroy rape culture in Nigeria? When a tree is cut down, new leaves can still sprout from the remaining stump, it's only when you destroy the root that the tree is completely dead. If we must destroy rape culture, we need to get to the root and destroy it. I'm not even sure what the root cause of rape is, but I'm sure it's not indecent dressing.

Indecent dressing is just a branch of the big tree. We should fight indecent dressing but will that put an end to rape? I don't think so. I also know there's a lot that needs to be done, but let's start with our **MENTALITY**

Evil they say, is first committed in the mind. Mr. A and Mr. B saw an indecent lady, Mr. A looked away while Mr. B started nurturing immoral thoughts towards the lady, what's the difference between the two? Mindset, mentality. We need to change our mindset as people. There are so many things we think are normal but they aren't. Little things like tapping a girl's behind inappropriately, touching a girl inappropriately, touching a guy inappropriately, yeah boys get molested too. "I bought her this and that therefore she must open her legs for me" it's wrong. It will shock you to know that there are a lot of men who rape their wives and see nothing wrong with it because they paid "bride price"

One day we will all become parents. Let's teach our young boys how to be morally responsible, let's teach our young girls how to be morally responsible. You will do that teaching yourself, not their school teacher, or pastor /priest. Lets teach people that STOP means STOP, NO means NO. No doesn't mean "try harder" Rape is evil, it destroys both the victim and the rapist.

MY ADVICE TO LADIES

My mom usually tells me, "be careful out there with people especially strangers. Not everyone you see out there is normal, some are completely insane"

That's just it, as a lady be careful out there. Dress responsibly, don't hang out with irresponsible people. You're spending a guy's money, you know he'll ask for sex at the end of the day but somehow you're planning to say no when he does. Just like I stated earlier, we have a damaged mindset and a lot of guys won't take your no as an answer. How about you work hard, make your own money and save yourself all the stress and risk of trying to milk another man's money. Why do you lock your room whenever you want to leave?, because of thieves right? . But let me ask, does anyone have the right to take your property no matter how careless you keep it? No. But you still try to keep your things safe.... No man has any right to rape you, but considering the fact that there are some demons out there, I'll suggest you protect yourself all the time.

UNMSA CHAMPIONS BELITTLE THE 2023 FOOTBALL CLASS

There's a reason they call 021 MBBS FC 'The Champion's. with the eyes of the world firmly gazed on the synthetic pitch stadium, 021 MBBS FC superstars did what they do best. Two jaw-dropping goals justified Coach Embassy's decision to play KESTER as a Striker and KANU as a CMF- a masterclass move that stamped 021 MBBS FC's full authority over the 023 MBBS FC.

023 MBBS fc THREATENED EARLY and kept piling pressure on the 021 MBBS FC team. It was a sign of things to come but 023 MBBS FC could not maintain the tempo of their game as they were aggressively stifled out on all areas of the game.

021 MBBS FC took control of the game and whipped the ball in time and time again with 023 MBBS FC growing increasingly nervous under the deliveries. Despite all these score line remained 0-0.

021 MBBS FC took control of things and eventually cracked the defence when Mane made a solo run, dribbled past three players within the slickest of touches and passed a neat ball to KESTER who had no difficulty in scoring.

023 were awarded a penalty kick after their player was fouled in the 18n yard box. Cajetan the team captain stepped up and played the penalty kick. Alas! He missed it. They later pulled a goal back through XXXX.

The 2021 MBBS FC were not done yet and after lots of wonderful plays got their player fouled in the 18 yard box. They were awarded a penalty. Kelz, the team captain stood calmly and slotted it home giving the current UNMSA Champions a well deserved victory against their younger counterparts.

In the end, 021 MBBS FC continued to show that their dominance in UNMSA was not a mirage. It had come to stay.

'WHAT IS LOVE'

Continued from May's Newsletter

...love is a passionate commitment that we must constantly work to develop and nurture. Without commitment, Love struggles in vain like a candle in the wind.

"Love has to be stupid, for it is only on that backdrop can a brother buy "Suya" and happily pick up the onions while his

girlfriend feasts furiously on the meat pieces.

But Love has been bastardized.

Love is not Lust; It is not a temporary desire fueled by an increased release of testosterone and estrogen, which lasts for a little bit, then you normalize and it's gone. Love is way bigger than infatuation, and it is not any one of those tales brothers tell just to lay a girl. Neither is it any of those acts sisters put up just to milk dry a brother".

"Are you a psychology student?" interrupted the stranger again, this time with a smirk. "I bet you must have read so many classics on Love as a matter of fact"

"No!", I defiantly denied.

"A medical student I am, and I have heard some of my professors define love as a powerful neurological condition and not something you can necessarily control. In Pathology, they say it is a "healthy disease" of the mind, and in pharmacology, they allude its effect to the distinct euphoria cocaine sparks in the brain".

"But love isn't all butterflies and magic. Believe me, Love is not always heavenly. It can be a lemon; bitter and sweet. Love is like a complete package of a Rose – beautiful in color and fragrance, but also coming with the thorns.

Love is a battlefield. You've got work to do; you have to fight like hell for it. Love means compromise. Love means sacrifice. Love isn't this huge beam of light that shines down on a couple for eternity. It can be messy and full of ugly words and whispers, and it takes a huge amount of work. Love is forgiveness. Forgiveness is love.

Love is to marriage; what carbon is to steel. Love is not a noun – Love is a verb; so full of actions. Love is a reaction of negative free energy, in Chemistry – Love is spontaneous. At that instant, as if in agreement with the mentioning of spontaneity, the taxi pulled over by the corner of the road where I was to stop.

"It has been a wonderful conversation with you" The stranger said, as I made for the door.

"Tell me, where is it you are headed?"

"I am headed to Shoprite to buy a bottle of Fresh-yo yoghurt for myself. While drinking, I will walk around the mall with an air of authority, as if my father owns the place, while letting the chilly air from the AC, a luxury I cannot yet afford, simmer generously through my skin"

"That is Love, and Love begins with self, for you can not love another better than you love yourself. And too, Love doesn't necessarily have to be costly.

Just then, the curtain draws, and the lights went off. Reality returns, nothing but just a figment of my creative imagination.

With much love

POEM

You make me feel what Solomon felt when he wrote the songs..

Numerous times I did the hurt but you keep forgiving my wrongs..

Your words encourage and dare me, a divine source of hope

I don't know what the future holds, I wish I could scope..

Your smile as pure as a bride approaching the altar..

Its warming charm, making me stutter..

Your eyes vividly enchanting, it's colour, slightly dark..

My writings fail in describing, Not great, lacking the spark

2023 MBBS CLASS

HOW TO PLAY SUDOKU

Place a number(1-9) in each blank cell. (No line can have two of the same number)

Each row (nine lines from left to right), column, (also nine lines from top to bottom) and 3 X 3 block within a bold block(nine blocks) contains number from 1 through 9. This means that no number can appear twice in any block, column or row.

No mathematics is involved- no adding, subtraction, division or multiplication, just plain logic and your imagination

Fun facts

- ❑ Penicillin was first called 'mold juice'
- ❑ Turkeys can blush
- ❑ There's a bridge exclusively for squirrels in the Netherlands
- ❑ Cherophobia is the irrational fear of being happy
- ❑ If a female ferret in heat doesn't find a mate, she can die..(the struggle is real;)
- ❑ Red Santos was created by Haddon Sundblom for a Coke advertisement in 1931
